

EARN R17 000 in only 6 months on

your team

In this article we will demonstrate how a Consultant can increase her income to R 17 737 within six months. In order to do so you have to focus on the Fast Start and Bright Star bonuses as these bring in an income. In the example, the Consultant qualified as a Manager within six months. She built her downline wide, but she also helped her Consultants do the same in their downlines.
