STEP 2 Ace your Cleansing Routine

- 1 Wash your face at night. Cleansing disturbs the delicate pH balance of the skin, which can take up to 18 hours or more to return to normal.
- 2 Never sleep with your make-up on.
- 3 Rinse your face with warm Rooibos or Green Rooibos-infused water – not hot! The antioxidants in Rooibos help eliminate any side effects of chlorine and fluoride in tap water, which can dry out, age and irritate the skin.
- 4 Once done, gently pat your skin dry with a clean, dry towel.

The benefits of cleansing daily

It removes dirt, sweat and make-up and allows the skin to breathe, repair and renew.

It prevents acne and spots

PRO TIP

Using an exfoliator twice a week in combination with your cleanser is essential to create a spotless surface which helps your other skin care products to penetrate your skin more deeply and perform their tasks more efficiently.
