

# ZEROTOX: A SUPER SPONGE

Our modern day lifestyles and pollution put us all at risk of excessive toxin exposure. But what if there was a way for us to limit the exposure and allow us to eliminate harmful toxins naturally! Zerotox is the answer!

## What is Zerotox?

Zerotox is like a super sponge that adsorbs the toxins found in our bodies. It absorbs the toxins as it travels through our digestive systems. Basically it works in the same way a sponge soaks up water. In addition, it removes any foreign substances in the body.

## What is the "sponge" technology called?

Zerotox contains unique microsphere technology called, Absorbatox™. Absorbatox™ adsorbs toxins, changing its molecular structure and rendering it harmless, after which the body removes it naturally.

## Why use Zerotox?

## Why is it important to remove heavy metals and toxins from our bodies?

Heavy metal toxicity can have detrimental effects on your health. Zerotox is FDA certified, helps to restore organ equilibrium and is safe to use (it doesn't get absorbed into the bloodstream, but stays in the gastrointestinal tract) even in severe cases.
