# Wake Up to Balanced, Radiant Skin with

# HYDRAFINE NIGHT CREAM

**Our Hydrafine range is crafted for normal to combination skin — skin that can be oily in some places, normal to dry in others and changes with the seasons. Think shiny T-zone, dry cheeks and the occasional flare-up. Hydrafine helps calm, hydrate and balance your skin, whatever its mood.**

## Hydrafine Night Cream

The new Hydrafine Night Cream is a deeply nourishing formula designed to support your skin's natural overnight renewal process. It targets both normal to dry and oily areas — leaving your complexion smooth, hydrated and refreshed by morning.

### Normal & combination skin quiz:

(Two or more ticks means you have normal or combination skin)

- ☐ Normal or sometimes dry cheeks
- ☐ Occasional enlarged pores
- ☐ Oily forehead, nose and chin
- ☐ Oily skin in summer and dry in winter

## Perfect for:

- Skin that's oily in some areas, normal to dry in others
- Dull, tired, or unbalanced complexions
- People who need hydration without heaviness
- People looking for fragrance-free, anti-pollution, calming care

## WHY IT WORKS

**Overnight Hydration**

Squalane, vitamin B5 and lanolin helps restore moisture without clogging pores — ideal for combination skin.

**Barrier Support + Repair**

Niacinamide, vitamin E and provitamin B5 help strengthen the skin's barrier and reduce redness or irritation.

**Powerful Antioxidant Protection**

Green Rooibos and vitamin E help neutralise environmental damage and prevent premature ageing.

**Oil Control + Texture Refining**

Marinematt and niacinamide minimise shine and refine pores — especially in the oily T-zones.
