## Reasons to Include Rooibos in your Health Strategies

Rooibos is so much more than just a beverage. Indigenous to South Africa, this local herb holds numerous health benefits. Naturally caffeine free, it is ideal as a health supportive beverage for young and old and added to health supplements, these benefits are even more readily available.

**ROOIBOS IMPROVES HEART HEALTH**  
A study done at the Cape Peninsula University of Technology showed that drinking six cups of Rooibos tea for six weeks decreased LDL cholesterol and triglycerides, and increased HDL cholesterol.

**ROOIBOS HELPS TO PREVENT CANCER**  
Stellenbosch University research published in April 2014, recommends that people who spend a lot of time in the sun should consider using a skin care product containing Rooibos extracts to prevent the development of skin cancer and to delay the onset of malignant tumours.

**DEVELOPED AND MADE IN SOUTH AFRICA**  
Locally developed and manufactured, the range includes award-winning skin and body care, health supplements, herbal teas, cosmetics, and fine fragrances, extensively tested and compliant with the highest standards.

**ROOIBOS REDUCES THE RISK OF TYPE 2 DIABETES**  
Prof. Christo Muller, Chief Specialist Scientist at the SA Medical Research Council, says aspalathin – a unique phenolic compound found only in the Rooibos species – has been shown to improve blood glucose levels and therefore could help to reduce the risk of type 2 diabetes.

**ROOIBOS IMPROVES DIGESTION**  
It eases stomach cramps and diarrhoea thanks to the calming effect of its flavonoids on the digestive system. Rooibos can benefit anyone, especially when incorporated into a healthy lifestyle plan. It is caffeine free, so it is suitable for babies from 6 months to the elderly.

**LEGITIMATE**  
The Annique Rooibos business opportunity offers a legitimate, low risk opportunity to make extra money selling high quality Rooibos based products. We are a proud member of the Direct Selling Association of South Africa.

**EMPOWERMENT**

rooibos

Want  
Healthy  
Skin?  
Just add  
Rooibos

Rooibos is a staple in many South African homes with its popularity growing rapidly around the world. Although the traditional way to enjoy the benefits of Rooibos is to drink it as a tea, the benefits of this indigenous herb that only grows in a small area in the Western Cape can be extended to Rooibos infused products as well. The benefits of incorporating Rooibos into your beauty regime are numerous.

The anti-bacterial and hypoallergenic properties of Rooibos help to fight against bacterial infections and can also aid in relieving allergies.

Rooibos is gentle on the skin, aiding in soothing sunburn, rashes (even nappy rash), abrasions and itchy skin.

## Benefits of Rooibos for your skin

Rooibos' anti-ageing properties stems from antioxidants which assists with reducing wrinkles and promotes the production of healthy skin cells. A study conducted in 2010, followed 20 women for four weeks who reported that Rooibos was effective in reducing their wrinkles by 9.9%. Rooibos antioxidants manages to effectively neutralise free radicals which are responsible for causing wrinkles.

Drinking Rooibos can keep skin hydrated and healthy.

Eczema and acne are reduced by the high levels of flavonoids in Rooibos and also allows for healthier skin. With inflammation being one of the main courses of acne, the inflammatory properties of Rooibos aids in the reduction of acne.

# ANNIQUE'S 6 Differences

1

**Cleanse skin only once a day** in the evening, so as not to disturb the pH of the skin, which could lead to skin problems. Rinse your face with Rooibos-infused water.

2

**Press cream onto face** instead of rubbing it in.

3

**Moisturise regulary** when required – just like you drink water when you are thirsty, you need to apply moisturiser to your skin as often as it needs it.

4

**Sun protection** forms part of the daily Annique Rooibos skin care routine – 80% of skin ageing is caused by sun damage.

6

**Annique Rooibos foundation** is considered to be part of the skin care routine, as it forms a physical barrier between the skin and the environment and contains sunscreen to protect the skin against harmful UV rays.

5

**Apply Freshener** (not toner) as the last step in your skincare regime.

“

At 46, two years ago, I finally took the step to add Forever Young Revitalising Cream to my morning routine. I had been using a dermatological product from the USA for at least 10 years. Within two months I noticed a remarkable improvement in my skin. I am in awe of the effect of Revitalising Cream: a healthy glow is what meets me in the morning every day; not wrinkles.

“ Like going to a restaurant with friends, we often only miss something when we don't have it anymore. I recently ran out of my Hydrafine Night Cream, which I've been using for years, not knowing I don't have a spare container. While waiting for my order to arrive, my skin just didn't look or feel the way it did in the morning when I use Hydrafine Night Cream before bedtime. Needless to say, I'll make sure to stock up! Nothing beats having skin that feels fresh and moisturised.
