ANNIQUE ROOIBOS PRODUCT TRAINING
Black Friday Exclusive • November 2026

Resque After Sun Spray

Cool. Calm. Hydrate.

A lightweight, refreshing mist that helps skin feel cooler, calmer and hydrated after sun exposure.

Rooibos

Helps soothe and support sun-stressed skin.

Aloe vera

Helps cool and hydrate skin after sun exposure.

Pro-vitamin B5

Helps moisturise and comfort dry-feeling skin.

Menthol

Provides a fresh, cooling sensation to refresh hot-feeling skin.

Also contains: Glycerin • Allantoin • Rosehip Oil • Vitamin E

What it does

- Cools hot-feeling skin with a refreshing mist.
- Soothes sun-stressed skin with Rooibos and comforting actives.
- Hydrates dry-feeling skin.
- Refreshes without a heavy or sticky after-feel.

Who it's for

All skin types. Ideal after beach, pool, sport or outdoor days when skin feels warm, dry or in need of comfort.

How to use

1. After sun exposure, cleanse the affected area.
2. Spray an even mist over sun-exposed skin, avoiding the eyes and broken or blistered skin.
3. Allow to absorb naturally or smooth gently over the skin if needed.
4. Reapply as needed after sun exposure.

Remember

This is after-sun care, not sunscreen. It does not provide SPF protection. Continue using broad-spectrum sunscreen before and during sun exposure.
For intact skin only. Seek medical advice for severe sunburn or significant symptoms.

Broad-spectrum SPF → Sun exposure → Rinse / cleanse → **After Sun Spray** → Moisturise if needed
